

IHEMEDO CHINEDU EXCEL

Software Engineer

ihemedochinedu@gmail.com ♦ Lagos, Nigeria

[GitHub](#) ♦ [LinkedIn](#) ♦ [Portfolio](#)

EDUCATION

OND in Mechanical Engineering, Yaba College of Technology (GPA: 3.7/4.0)

2023 — 2025 ♦ Lagos, Nigeria

EXPERIENCE

AI/ML Intern (IT Program)

Yabatech Digital Technology Academy

2025 — Present

- Developed a face recognition system using computer vision techniques, training models on real-world datasets.

Frontend Engineer Intern

Klouto

Nov '25 — Dec '25

- Built scalable and responsive UI components using React, improving user experience across core product features.
- Consumed REST APIs and managed application state for dynamic, real-time data rendering.

Stock Manager

Independent Chemical

Mar '24 — Present

- Automated inventory tracking system, reducing discrepancies by 30% and improving operational efficiency.
- Streamlined stock management processes through barcode-based workflows.

Full Stack Developer

Independent Chemical

Nov '24 — Jan '25

- Designed and developed a full-stack product dashboard using Next.js and Wix API.
- Implemented server-side rendering and performance optimizations to improve load speed and usability.

Backend Developer (Contract)

Bamcrypto Telegram Bot

Sep '25

- Engineered a scalable Telegram bot system serving 1000+ users with real-time event handling.
- Built backend services using Python, Django, and Pyrogram, integrating with external APIs.

PROJECTS

PushShamer (AI Code Review System)

TypeScript, Deno, GitHub API, Webhooks

- Built an AI-powered code review automation tool that analyzes pull requests and generates feedback.
- Integrated GitHub webhooks for event-driven architecture and real-time PR analysis.
- Improved developer workflow by reducing manual review effort and enforcing code quality.

E-Commerce Platform (ICN)

Next.js, ShadCN, Wix API

- Developed a full-stack e-commerce application with authentication, product management, and API integrations.
- Implemented dynamic data fetching and optimized performance for fast, responsive user experience.

Food Delivery Mobile Application

React Native, Node.js, Express

- Built a cross-platform mobile application with REST API integration for food ordering workflows.
- Designed scalable backend endpoints and handled client-server communication efficiently.

SKILLS

Languages: JavaScript, TypeScript, Python

Frontend Development: React, Next.js, React Native, Tailwind CSS, ShadCN, GSAP, Framer Motion

Backend Development: Node.js, Express.js, Django, FastAPI, REST APIs

Databases: Mongoose, Prisma (ORM's)

Tools & Platforms: Git, GitHub, GitHub Actions, Vercel, Postman, Telegram API

AI/ML: Computer Vision, Model Training, Data Processing
